CONNECTING UNCERTAINTY WITH CLARITY

Fueled by her passion for helping people and armed with over 30 years of financial planning experience, Dianne specializes in creating long-lasting, multidimensional success in her clients' lives by removing confusion and complexity from the financial planning and investment management process. Through education and guidance, Dianne provides individuals with clarity and tools to navigate life's transitions.

Dianne launched her career at Shearson-Lehman Brothers and Smith Barney. With an expertise in driving results for clients and consistently ensuring the long-term viability of their strategy and plan, she keeps clients informed and current with cutting-edge investment strategies.

With client satisfaction as her top priority, Dianne provides her clients with confidence, peace of mind about their wealth, and mindset of abundance. She believes investments are not your plan, they are what funds your plan. Her clients are empowered to thrive as she works with them to create a holistic financial strategy and cultivate an understanding of the plan. Colleagues and clients describe Dianne as a partner in the financial journey, with a strong client and future focus. A resilient individual, Dianne connects with her clients and finds that they sometimes must borrow her resilience, which she freely offers to clients in need.

A champion of women, Dianne strives to unleash women's financial power and help them invest their most important life goals. To that end, she co-founded Done with Divorce™, a seminar series that supports individuals nearing or at the end of a property settlement and/or divorce settlement. This program shares actionable next steps to transfer property, create independent financial and estate plans, and create forward momentum in their lives. She also volunteers her time as a speaker and host with Second Saturday®, a nationwide not-for-profit program supporting individuals who are separated or in the early stages of divorce. A dedicated life-long student in the financial industry, Dianne strives to broaden her knowledge of behavioral finance and psychology. She learns from thought leaders and industry experts, most recently she has enjoyed the work of Malcolm Gladwell. Dianne enjoys spending time with her two children and her husband of 30 years. Together they enjoy the Fairfax Symphony and spending time at their seaside home on the Outer Banks.
